 - (d) Upon review of the Request by the Commission's GO 156 Staff, the GO 156 Staff will publish a draft resolution under the Commission's Rules of Practice and Procedure granting or denying the requesting third-party agency its verifying agency status. This draft resolution shall be placed on the Commission's Agenda for a vote.

- 6.3.9. Each utility or other covered entity may include awards to eligible supplier subcontractors in its GO 156 reporting results.

7. REVIEW PROCESS, NOTICE OF APPEALS, AND COMPLAINTS

This section sets forth the review process for when an applicant seeks (1) a reconsideration of a denial to verify/certify by the Clearinghouse and (2) to file a Notice of Appeal with the Commission after the Clearinghouse confirms its denial. This section also sets forth a process for a third-party to challenge a verification/certification of an eligible supplier by the Clearinghouse.

- 7.1. Internal Review Process. The review process for a denial of verification/certification includes two steps. First, the applicant can seek internal review from the Clearinghouse. If the Clearinghouse confirms the denial, as the second step, the applicant can seek review of the denial with the Commission by filing a Notice of Appeal under Resolution ALJ-377 (or successor rules) and the processes set forth therein. This resolution is available on the Commission’s website. Resolution ALJ-377

sometimes refers to Notice of Appeals as complaints.

- 7.1.1. The Clearinghouse must implement an efficient internal review process and must promptly provide a copy of confirmation or reversal of the denial to the applicant.
- 7.2. Notices of Appeal. The Notice of Appeal will be docketed as a formal proceeding. All docketed matters are accessible on the Commission's website. The Chief Administrative Law Judge shall designate an Administrative Law Judge to hear the Notice of Appeal.
 - 7.2.1. The Administrative Law Judge shall make best efforts to notice the Notice of Appeal for hearing between 10 and 20 days after being assigned to hear the Notice of Appeal. The Administrative Law Judge may confer with parties to determine whether any material facts are in dispute prior to scheduling a hearing and consider whether a hearing is warranted. The Administrative Law Judge may, for good cause shown or upon agreement of the parties, grant a reasonable continuance of the hearing and, instead, schedule and notice the hearing beyond the time period noted above.
 - 7.2.2. A party or jointly the parties may order an expedited transcript of the hearing. Costs may be associated with an order for an expedited transcript, in accordance with the Commission's requirements. In the absence of an expedited transcript, the Commission may address this matter after approximately 8 weeks, the length of time for preparation of a transcript (when no expedited order is placed).
 - 7.2.3. A party may be represented at the hearing by an attorney or other representative.
 - 7.2.4. At the hearing, the applicant carries the burden of proof and shall open and close but the Administrative Law Judge has the discretion to alter the order of presentation. Formal rules of evidence do not apply. All relevant and reliable evidence may be received in the discretion of the Administrative Law Judge. No deference will be accorded to the underlying denial by the Clearinghouse. The standard of proof is preponderance of evidence.
 - 7.2.5. The Administrative Law Judge shall issue a draft resolution for the Commission's consideration resolving the Notice of Appeal as soon as possible but no later than 30 days after the record of the Notice of Appeal is submitted. The draft resolution will be placed on the Commission's first available agenda, consistent with the Commission's Rules of Practice and Procedure. In the event the transcript of the hearing is not available, the Administrative Law Judge may delay issuing a draft resolution. This timeline would therefore be longer than set forth in Resolution ALJ-377.
 - 7.2.6. From the date the Notice of Appeal is filed and served to and including the date the Commission's final resolution is published, neither party (or an attorney or agent acting on behalf of a party) shall engage in ex parte communications, except for procedural matters. More information about ex parte communications is available in the Commission's Rules of Practice and Procedure.
- 7.3. Third-Party Challenges. A third-party may challenge the certification/verification by the Clearinghouse of an applicant/eligible supplier under the Supplier Diversity Program whether the certification/verification is pending or completed. Third-party challenges must comply with all the following: (1) be in writing and sent to the Clearinghouse; (2) set forth with specificity the grounds for the challenge in ordinary and concise language; (3) include the name and address of the third-party; and (4) be

served on the affected applicant or eligible supplier on the same day sent to the Clearinghouse. Such challenges may include supporting documentation.

- 7.3.1. The Clearinghouse will review third-party challenges to determine whether a factual basis for the questioning exists. If the Clearinghouse determines insufficient factual basis for the challenge exists, it shall act as follows: (a) inform the third-party and subject applicant or eligible supplier of this determination in writing within 20 business days of the receipt of the challenge and (b) inform the third-party of the right to file a Notice of Appeal to the Commission. Resolution ALJ-377(or successor rules) sets forth the process for filing the Notice of Appeal. Additional procedures related to Notices of Appeal are set forth herein.
- 7.3.2. If the Clearinghouse determines that sufficient factual basis for the challenge exists, the Clearinghouse shall require the applicant/eligible supplier to provide the Clearinghouse with any additional information needed to permit further evaluation of the verification/certification of the applicant/eligible supplier. Following the Clearinghouse's review and evaluation of the information presented by both the third-party and the applicant/eligible supplier, the Clearinghouse will propose a resolution and provide for an opportunity to respond to the Clearinghouse's proposed resolution. Then, the Clearinghouse shall notify the third-party and the applicant or eligible supplier of its final verification decision and of the right to file a Notice of Appeal of this determination with the Commission pursuant to Resolution ALJ-377 (or successor rules) and the processes set forth herein.³
- 7.3.3. During the pendency of a third-party challenge of a business enterprise already verified/certified by the Clearinghouse, the business enterprise will remain certified/verified.
- 7.3.4. If a third-party challenge does not include the minimum criteria set forth above or it withdraws its challenge, the Clearinghouse may continue its review to determine whether the challenge merits consideration.
- 7.4. Contract Disputes. Disputes regarding general contract-related matters, such as failure to win a contract award, must be brought before the appropriate court or other forum. The Commission's jurisdiction on contract related matters is limited. Some disputes or complaints regarding the Commission's GO 156 Supplier Diversity Program, such as complaints about non-compliance with GO 156, may fall under the complaint process set forth in the Commission's Rules of Practice and Procedure. The Notice of Appeal, described herein, is also available.

8. PROCUREMENT GOALS

Each utility and other covered entity shall set substantial and verifiable short-term (one year), mid-term (three years), and long-term (five years) goals for the utilization of eligible suppliers under the Commission's Supplier Diversity Program. Goals shall be set annually for each major product and service category which provides opportunities for procurement. "Substantial and verifiable Goals" mean goals which are realistic and clearly demonstrate a commitment to encourage the participation of eligible suppliers in contracts.

- 8.1. The utilities and other covered entities shall consider the following factors in setting goals:
 - 8.1.1. Total utility purchasing and/or contracting projections;

3

- 8.1.2. Availability of eligible suppliers under the Commission's Supplier Diversity Program and competitiveness in the geographical area served by the utility or other entity;
 - 8.1.3. Market dynamics based on historical data and trends; and
 - 8.1.4. Other appropriate factors which may increase the share of business for eligible suppliers under the Commission's Supplier Diversity Program.
- 8.2. Each utility or other covered entity shall establish minimum long-term procurement goals for each major category of products and services purchased from eligible suppliers of not less than the following: 15% for minority business enterprises; 5% for women business enterprises; 1.5% for disabled veteran business enterprises; and 0.5% for 2022, 1.0% for 2023, and 1.5% for 2024 and beyond for LGBT business enterprises. No procurement goal has been adopted for persons with disabilities business enterprises.

Contracts or purchases with eligible suppliers under the Commission's Supplier Diversity Program may only count toward one procurement goal. For example, a minority and women business enterprises may be counted toward one goal, either the minority business enterprise goal or the women business enterprise goal but not both.

- 8.3. The specification of initial long-term procurement goals shall not prevent the utilities or other covered entities from seeking to reach parity with those public agencies and other companies, which the Legislature states in Pub. Util. Code § 8281(b)(1)(B) are awarding 30% or more of their contracts to women, minority, disabled veteran, and LGBT business enterprises.
- 8.4. Procurement goals shall also be established for both minority women business enterprises and non-minority women business enterprises. These goals are intended to ensure that utilities and other covered entities do not direct procurement programs toward non-minority women business enterprises and minority men business enterprises to the detriment or exclusion of minority women business enterprises.
- 8.5. Procurement goals shall be set for each major category of products or services. Goals need not be set for products or services which fall within an "excluded category" pursuant to former Section 8.5.⁵
- 8.6. For each major category of products and services where the minimum long-term procurement goals required by Section 8.2 are not met, the utility or other covered entity shall include a comprehensive discussion of all efforts made to find or recruit eligible suppliers of products or services. The utility and other covered entity may also explain in detail in its annual report how its ability to meet its procurement goals are affected because eligible suppliers capable of supplying certain products and services are unavailable or because sole source procurement is the only available procurement method. As part of this explanation, the utility and other covered entity may also include data with exclusions pursuant to former Section 8.5.⁶ If such data is necessary to more

⁵ In D.03-11-024, the Commission revised GO 156 and modified Section 8.7. Prior to D.03-11-024, Section 8.5 provided:

A utility may create an "excluded category" of products or services where it is clearly evident that WMDVBEs do not provide a specific product or service, or that sole source procurement is the only available procurement method. The utility shall bear the burden of demonstrating the unavailability of WMDVBEs capable of supplying such products or services. Because there may in the future be WMDVBEs capable of supplying products or services in an excluded category, the utility must justify in its annual report the continued existence of its excluded category. Excluded categories must be noted in the utility's annual report to the Commission on WMDVBE program progress and future plans.

⁶ See *supra*.

fully explain why it has not been able to eliminate exclusions, provided that the utility or other covered entities report must contain the data without exclusions in the first sentence.

- 8.7. A utility or other covered entity which is presently purchasing products or services from affiliates may subtract the dollars paid to affiliates for these products or services from the total dollars used as the basis for establishing procurement goals for purchases from eligible suppliers of these categories of products or services, provided that the utility or other covered entity encourages the affiliate to establish an appropriate subcontracting program where such affiliate employs subcontractors. Any utility or other covered entity which takes advantage of this section must in its annual report to the Commission state whether the affiliates have established a subcontracting program and describe the results of any such program. The utility or other covered entities annual plan must describe any future plans to encourage such a sub-contracting program. This section applies only to those utilities which are purchasing products or services from affiliates as of the effective date of the General Order adopted on May 30, 1988.
- 8.8. Procurement goals for each specific product or service category shall be expressed as a percentage of total dollars awarded by a utility and other entity to outside suppliers in that category; however, where appropriate, non-numeric goals may also be included.
- 8.9. Overall program procurement goals shall be expressed as a percentage of total dollars awarded to outside suppliers in all categories of products and services purchased by a utility or other covered entity other than products and services which are included in a fuel procurement base established pursuant to Section 8.11.
- 8.10. Payments to other utilities and franchise tax fees, other taxes and postage need not be included in the standard procurement base used to establish procurement goals.
- 8.11. Each utility and other covered entity may establish a separate fuel procurement base for reporting progress and establishing goals for procurement of fuels from eligible suppliers under the Commission's Supplier Diversity Program. Utilities or other covered entities choosing to report fuel purchases separately from the purchase of other products and services must follow the guidelines set forth below:
 - 8.11.1. Fuel used to power vehicles, heat utility facilities, and supply emergency generators may not be included in the fuel procurement base. Such fuel must be included in the standard procurement base used to establish goals, unless the fuel is purchased from another utility and thus subject to the exclusion authorized herein;
 - 8.11.2. The fuel procurement base must, at a minimum, include all purchases of natural gas from domestic on-shore natural gas markets;
 - 8.11.3. A utility or other covered entity which purchases eligible supplier's fuels other than domestic onshore natural gas must include such purchases in the fuel procurement base because Section 8.7 of this amended General Order does not permit utilities or other covered entities to exclude product and services categories for which there are available eligible suppliers; and
 - 8.11.4. A utility or other covered entity may exclude purchases of fuel other than domestic onshore natural gas if such fuel qualifies for an exclusion under former Section 8.5 and if the utility plans for and reports on progress in increasing the procurement of such fuels from eligible suppliers.
- 8.12. Each utility and other covered entity shall make special efforts to increase

utilization and encourage entry into the marketplace of eligible suppliers in product or service categories where there has been low utilization of eligible suppliers, such as legal and financial services, fuel procurement, and areas that are considered technical.

- 8.13. No penalty shall be imposed for failure of any utility or other covered entity to meet or exceed procurement goals.
- 8.14. Utilities and other covered entities shall report their procurement goals in their annual plans.

 - 9.1.7. A description of any efforts made to recruit eligible suppliers for products or services in procurement categories where utilization has been low, such as legal and financial services, fuel procurement, and areas that are considered

Utilities and other covered entities shall report renewable and nonrenewable energy procurement in a manner similar to their reporting of fuel procurement.
- 9.1.10. The Commission's staff may conduct as many audits of utilities and other covered entities as it deems necessary but shall audit at least one annual GO 156 report randomly selected every two years from a different utility industry to confirm that the reported spend is accurate. The Commission's staff may determine the selection process for this random selection and the audit methodology. The Commission's staff may conduct audits of any reports or data provided to the Commission by utilities and other covered entities regarding their participation in the Supplier Diversity Program.
- 9.1.11.  - (2) A comprehensive description of the specific out-reach programs used to seek eligible supplier fuel suppliers in each market in which fuel is purchased; and
 - (3) A justification for any exclusion of a specific fuel category from the utility's or other covered entity's fuel procurement base.
- 9.2. This General Order is not intended to permit erosion of programs and reporting presently engaged in by a utility.
- 9.3. Nothing in this General Order shall prohibit any utility or other covered entity from

breaking down specific categories further than presently required (for example, reporting contracts awarded to Filipino Americans separately from those awarded to Asian Pacific Americans, or reporting male and female results within minority business enterprise classifications).

10. REQUIRED ANNUAL PLANS

Utilities and other covered entities shall provide an electronic copy of its Annual Plan on the Commission's Executive Director on or before March 1 of each year, that includes a detailed and verifiable plan for encouraging procurement in all categories eligible business enterprises under the Commission's Supplier Diversity Program. 11. Annual Reports and Annual Plans for Community Choice Aggregators:

As set forth in R.21-03-010, community choice aggregators shall comply with the same reporting requirements as utilities except that the reporting requirements may be modified to reflect the fact that, at this time, energy procurement represents the majority of expenses for a typical community choice aggregator. Staff will develop reporting requirements more limited than those applicable to utilities but still include the information in Section 9 and Section 10, *herein*.
